ABSTRACT

During the past several years the Phoenix Union High School has experienced a phenomenal decline in enrollment and a high dropout rate. To focus on enrollment statistics, number of dropouts, causes for dropping out, number of dropouts by race, percent of absences, and transfers, computerized data received from district high schools were analyzed. Some of the results showed that poor attendance was cited as the main reason for dropping out. Hispanics comprised the greatest percentage of dropouts, i.e., 25%. Orientals had the lowest number enrolled and the fewest number of dropouts within the minority category. Student plans after withdrawal were largely unknown; many students were unable to be contacted; of those who were contacted, "undecided" was their most common answer as to future plans. Numerous statistical tables are provided to illustrate the findings. (JAC)

Summary Report on Dropouts - Reasons for Dropping,
Percent of Absences, Transfers, and HPM/ADM Ratio Graphs

INTRODUCTION

This report focuses on Enrollment, Dropouts, Cause for Dropouts, Dropouts by Race, Percent of Absences, Transfers, and HPM/ADM Ratios respectively.

The enrollment figures are received from each high school and satellite school via computer.

The dropout figures are also received from each high school and satellite via computer. So that dropouts are not counted more than once a formula is used. Certain codes are used for dropouts as well as students re-entering after having been a dropout. So that the reader may understand the formula, the codes are defined in the following manner:

W-1 codes are students who drop out for various reasons and do not plan to further their education

W-2 codes are students who have been absent for ten consecutive days for reasons other than illness and are mandated by state law to be dropped

R-1 codes are students who have dropped out as a W-1 and are returning within the same year

R-2 codes are students who have been dropped as a W-2 and are returning within the same year

The formula used to determine the dropout figure for each school is W-1 plus W-2 minus R-1 and R-2.

Special Reading Notes:

Cause for dropout is given by school, with percentages given for the total year in each category. (See page 4.) Readers wishing to know the specific figures by grade, for each school will find them on pages 32-44 of this report.

In the HPM/ADM Ratio, pages 20 through 31, the reader will note the comparisons are made between the 40th and 120th days. Beginning with the 1980-81 school year, the State required that ADM/ADA be submitted on the 40th day and 120th day instead of every ADA month.

55:08:82/83:502gg

ENROLLMENT FOR ONE YEAR AND DROPOUTS OVER A FIVE YEAR SPAN

The number of students enrolled in the Phoenix Union High School District during the 1981-82 school year is 23,624. Enrolled is defined as a "head count" and does not reflect drops or transfers, and is not the same as HPM. HPM represents a head count as of a specific date. Enrollment represents a count of all entering students during the course of the school year.

									4	18.0

*Not included - adults are tuition students.

In Table II the percentage of Dropouts is based on the number of ent
Entries have specific codes and are defined in the following manner:ies or enrollees.

E codes are students entering an Arizona public school for the fir
t time this year.

R-3 codes are students transferring into the District from other A
izona school districts.

R-4 codes are students transferring from one school to another sch
ool within the district.

The formula used to determine enrollment in a particular high school
is E's plus R'3's plus R-4's.

The formula used to determine enrollment in the District is E's plus
R-3's. R-4's are not included in the District formula because to do so would be
o use a duplicated count.

Example: John Doe enters District School X as an E but trans
School Y as an R-4. School X provides the originalers to District
student entering the District. count for the

The District totals are intended to count each original entry.

55:0

:82/83:502gg

Table III has been developed from monthly dropout tallies prepared by each of the eleven high schools plus BACE. Please refer to pages 32-44 for detail by school.

Table III is a percentage of students counted each time they drop - some students more than once. Percentages are not reduced if the student later re-entered.

It appears that the highest percentages of students drop out because of attendance.

Social Behavior is made up of "Problems with Students" and "Violation of Criminal Code." Health is made up of "Physical Illness/Disability," "Mental Illness" and "Drug/Alcohol." Family/Economic is made up of "Problems at home/needed at home," "Economic reason" and Transportation. Miscellaneous is made up of "Unknown or unable to contact."

*Not on computer in 1981-82.
**Based on 11 high schools plus BACE.

During the past several years, the Phoenix Union High School District has experienced a phenomenal decline in enrollment and a high dropout rate. Even though the dropout percent for 1981-82 is four-tenths of a percent lower than 1980-81, the Phoenix Union High School District had approximately 1,508 less enrolled students in 1981-82 than in 1980-81. Therefore, the dropout figure is still discouraging. (See Pie 1). Pie 2 is the Enrollment percentages for 1981-82. Pies 3, 4, 5, 6 and 7 show the dropout percent per race. The reader will note that Hispanics have the greatest percent of dropouts with a quarter of those students dropping. Orientals have the least enrollment and dropouts in the minority category.

There are four types of students at AVC: In-District Dual, Out-of-District Dual, Parochial Dual, and Adults. The District does not get ADA/ADM on Out-of- District Duals and they are returned to their home school for dropping. The District does get ADA/ADM for In-District-Duals but it is claimed by the home school and these duals are returned to their home schools for dropping. The District does claim ADA/ADM on the Parochial student and when the Parochial student drops, AVC completes the "drop" paperwork. The District does not claim ADA/ADM on adult students but the adult students pay the tuition fee. AVC completes the "drop" paperwork.
